Narrative

Reporter states Julia (mother) has called the OSF Call Center on 11/8/2013 and 11/9/2013 regarding 9 month old Madeline. Reporter states Julia is reported that Madeline came home (unknown when) from a visit from her father's (name unknown) and it appeared her vaginal area looked open and stretched . Reporter states on 8/27/2013, Madeline was seen by OSF doctor, Dr. Krieger, due to Julia's concerns that Madeline may have been sexually abused. Reporter states Dr. Krieger's notes indicated that vaginal irritation may have been a possible diaper rash and the incident was reported to DCFS (unable to find any history regarding the incident in SACWIS).

Reporter states Julia is reporting that DCFS got involved and she now supervises visits with Madeline and her father and the last time Madeline had a visit unsupervised with her father was two months ago. Reporter is stating that Julia continues to feel that Madeline is having symptoms of sexual abuse stating Madeline screams when been cleaned and that she is constantly grabbing at her diaper. Reporter states Julia took Madeline to Perry Memorial Hospital last night and Julia reported that hospital "pretty much blew her off." Reporter states she instructed Julia to bring Madeline to OSF in Peoria because they had a special team that dealt with sexual abuse cases. Reporter states Julia reports she would be bringing Madeline to OSF this evening. Reporter states Julia and the father are going through a divorce. Reporter states Julia reports the father is in a SRA Cult and in satanic rock band. Reporter states Julia has reported that father has threatened to kill Julia and posted on Facebook "the innocent one will die." Reporter also states Julia reports the father has a song called "I smell blood of an infant's one." Reporter states Julia is reporting that the paternal grandfather is an alcoholic and the paternal uncle is psychotic and they all live with the father. Reporter states it is unclear if the father has seen Madeline alone with the father at this time. It is unknown if the mother is a credible source, but a report is being taken due to reporter's concerns regarding Madeline. Reporter states the symptoms Julia has been to describing to the OSF call center nurse's the past two nights are "huge" symptoms of sexual abuse. Domestic violence: Julia reported violence between her and Madeline's father. Substance abuse: Reporter states Julia has stated the father brought drugs and a pipe to a visit. No disabilities, AKA's, safety concerns, SSN's, family supports, or Native American ancestry were noted. SACWIS lists Julia's DOB as 4/17/1991. LEADS requested.

Allegations/Relationships

Alleged Perpetrator: EICKMEIER, JULIA **Relationship:** Mother
Alleged Victim: Kramer, Madeline
Allegation: 60-Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare by Neglect
Sub Types: **Finding:** Unfounded

List all evidence that suggests an incident occurred and that the alleged perpetrator is responsible:

The following was reported to the child abuse and neglect hotline:

Reporter states Julia (mother) has called the OSF Call Center on 11/8/2013 and 11/9/2013 regarding 9 month old Madeline. Reporter states Julia is reported that Madeline came home (unknown when) from a visit from her father's (name unknown) and it appeared her vaginal area looked open and stretched . Reporter states on 8/27/2013, Madeline was seen by OSF doctor, Dr. Krieger, due to Julia's concerns that Madeline may have been sexually abused. Reporter states Dr. Krieger's notes indicated that vaginal irritation may have been a possible diaper rash and the incident was reported to DCFS (unable to find any history regarding the incident in SACWIS). Reporter states Julia is reporting that DCFS got involved and she now supervises visits with Madeline and her father and the last time Madeline had a visit unsupervised with her father was two months ago. Reporter is stating that Julia continues to feel that Madeline is having symptoms of sexual abuse stating Madeline screams when been cleaned and that she is constantly grabbing at her diaper. Reporter states Julia took Madeline to Perry Memorial Hospital last night and Julia reported that hospital "pretty much blew her off." Reporter states she instructed Julia to bring Madeline to OSF in Peoria because they had a

special team that dealt with sexual abuse cases. Reporter states Julia reports she would be bringing Madeline to OSF this evening. Reporter states Julia and the father are going through a divorce. Reporter states Julia reports the father is in a SRA Cult and in satanic rock band.

Reporter states Julia has reported that father has threatened to kill Julia and posted on Facebook "the innocent one will die." Reporter also states Julia reports the father has a song called "I smell blood of an infant's one." Reporter states Julia is reporting that the paternal grandfather is an alcoholic and the paternal uncle is psychotic and they all live with the father. Reporter states it is unclear if the father has seen Madeline alone with the father at this time. It is unknown if the mother is a credible source, but a report is being taken due to reporter's concerns regarding Madeline. Reporter states the symptoms Julia has been describing to the OSF call center nurse's the past two nights are "huge" symptoms of sexual abuse. Domestic violence: Julia reported violence between her and Madeline's father. Substance abuse: Reporter states Julia has stated the father brought drugs and a pipe to a visits.

List all evidence that suggests an incident did not occur or that the alleged perpetrator is not responsible:
Julia has never made any threats towards Madeline. She appears to understand how to meet Madeline's basic needs and Madeline appears to be well cared for physically.

There is a custody issue in court at this time in regard to this child.

Rationale:

Allegation 60-Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare by Neglect is defined as follows:

Substantial Risk of physical injury means that the parent, caregiver, immediate family member, other person residing in the home, or the parent's paramour has created a REAL AND SIGNIFICANT DANGER of physical injury which would likely cause disfigurement, death, or impairment of physical health or loss or impairment of bodily functions. (ABUSE)

The allegation of harm is to be used when the type or extent of harm is undefined but the total circumstances lead to a reasonable person to believe that the child is in substantial risk of physical injury. This allegation of harm also includes incidents of violence or intimidation directed toward the child which have not yet resulted in injury or impairment but which clearly threaten such injury or impairment (ABUSE); placing a child in an environment which is injurious to their health and welfare (NEGLECT).

After a thorough investigation and examination of the inculpatory and exculpatory evidence, Allegation 60-Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare by Neglect as it relates to Julia Eickmeier and Madeline Kramer is recommended UNFOUNDED.

Rationale:

Julia has never made any threats towards Madeline. She appears to understand how to meet Madeline's basic needs and Madeline appears to be well cared for physically.

There is a custody issue in court at this time in regard to this child.
